

## **IMPORTANT NEWS REGARDING YOUR DRINKING WATER**

Your drinking water is important to us. Over the past 18 months Olympic View has been working with the Edmonds School District to reach an agreement on the testing of 16 deep underground injection control wells (UIC) at the new Madrona K-8 school located at 9300 236th St SW, in the Deer Creek Surface Source Protection Area for the Deer Creek Water Treatment Plant.

These wells will be used to collect and disperse the storm-water runoff from the entire site into the ground 40 feet above the water table serving the treatment plant.

Please contact us directly or visit our website [www.olympicviewwater.com](http://www.olympicviewwater.com) for additional information. Our job is to ensure long-term, safe drinking water in the interest of public safety and welfare for all of our customers.
